

Thank you for joining Citizenre!

Be sure to check out your Citizenre website now. You can access your site through www.jointhesolution.com/bonsol, where you will find a lot more information about your system.

On the back of this sheet you can see how to find information about your system when the panels are installed.

You can also refer friends and family, so they, too, will be able to enjoy the savings of solar panels, and you will get a little reward as well.

* Subject : I just registered for solar power on my home. I think you should check this out.

I just registered to have solar power put on my home by a company called The Citizenre Corporation. They are an energy company that is dedicated to modernizing our energy infrastructure and increasing our energy supplies.

1. Change text in email if you want

I believe that this is a very important goal - for a number of reasons. The first, and strongest, is that I believe we are too dependent upon foreign oil. I would like to be free of rising costs in oil and natural gas; not to mention, I would rather see my hard earned money stay right here in the U.S. The second reason is that I believe the pollution created from burning fossil fuels is having a damaging effect on our environment, and is the reason behind the increase in unstable weather.

* Your Comments :

There are more reasons to name, but I would rather you just visit the their web site below to find out more information about the Company, the reasons, and the chance to do what I did.

2. Enter your friends' emails
